# The People's State Bond Issue For Good Roads Is Kille WHERE HOOVER AND SMITH MET AT MIAMI

Newspaper dispatches tell of additional Texas towns locating airports, of the opening shortly of ports, of the opening shortly of mail service to Mexico, of a new air mail route to New York City from Texas, of the opening of an air-mail route from the east to the west and of the installation of airplane diner service between Chicago and a number of cities in the west and northwest.

newspaper today that does not carry some important development in aviation or of some extension of commercial service in this new field of transportation.

It is reasonable to believe from what we see and hear that we are BRYAN MAKES FIGHT on the threshold of a vast development and also that Bryan will not be advantaged by this unless some effort is made to tie into it.

State Board to Find SALVATION ARMY CLIQUE MUST GIVE HEAD FULL In the case of this city that should take the form of the establishment of an airport. The air above Bryan might be black with planes and the noise of their motors thunder ing field for them they'll soar on to the next town where landing accommodations have been provided. They can't land on Main street.

### ABOUT BRYAN

Mrs. E. O. Siecke of College Station and Mrs. C. A. Searcy of Bryan, motored to Caldwell this afternoon where they will be the guests of Mrs. J. Earl Porter for the night. Thursday Mesdames Siecke, Searcy and Porter will go to Somerville, to attend a special meeting of the Burleson County Parent-Teacher county council. Mrs. Siecke is Ninth District president P.-T. A.; Mrs. Searcy, district director of health and Mrs. Porter, the district secretary.

Wynne Lay of Houston arrived to day for a visit with his uncle and aunt, Mr. and Mrs. Tyler Haswell on west 24th street. Wynne Lay made Bryan his home for several years while a student at Allen Academy, and the occasions of his LOVE BILLS TURNED DOWN visits here are most pleasant to him and to his many friends.

the city manager form of govern- until her death. ment has been so satisfactory in Bryan that other cities are seeking as drafting proposed city charters is in the Kurten community. She other liquids. are up, is one in which residents of this city should take pride. The latest request of this sort comes from Nacogdoches, which apparently desires to model its proposed charter after that of Bryan. If they do as well as has been done here we are certain they will not regret the change in government

Senator Harris of Georgia in introducing a bill to deny second class mail privileges to more than one newspaper in a chain, is reported to have said that such ownership makes possible enormous control over the people among whom the circulation lies. We don't believe the effort to muzzle the press will succeed but we're glad to see that the gentleman from Georgia still believes in the power of the press.

Bryan is getting ready to care for the biggest crowd of boosters that ever invaded the city-the men and women who will attend the East Texas Chamber of Commerce to be held here in May. It's a big job and if it's well done the results should be highly beneficial to every resident. And each one should pitch in and do his

Now Texas solons propose to probe the highway commission and the beard of control. Why not make a clean sweep and investigate all from top to bottom. The net result probably would be nothing more than a reduction in the number of bills tossed into the legislative hopper, the minds of the makers being otherwise occupied.

### THE TOWN DOCTOR SAYS

MANY CITIES LIKE TOPSY HAVE "JUST GROWED"

In the past, the mental genius of the entire country has been de voted to invention, and the creating and studying of scientific manufacturing and production methods-a mechanical age with very little thought, comparatively, to the analyzation of the community. Now it is recognized that for further expansion of business it is necessary to give the same kind of constructive thinking to towns and the individuals making up the community as has been accorded industry.

What was, isn't! The museums are full of those things thought indispensable a few years ago. Consider the case of the dinosaur or the Tyrannoseurus that had the strength of a steam engine, or the Giganotsaurus that was over a hundred feet long and as big as a house, as an example. They ceased ot serve a useful purpose—there was no reason for them so they ceased to exist.

These things that were, but are not now, did not know they were "slipping," could not help themselves, so cannot be blamed-they could not think, therefore a warning of their predicament was useless. Men individually and collectively are capable of thinking; therefore, if they, their business, or their towns verge on the edge of the old order of things, they alone are to blame. Having the powers of comprehension, a hint as to the new order of things should be sufficient.

Yet, man with all of his brains retains those things in his makeup that tends to make one picture those creatures of the long ago. With some, it is procrastination and prejudice, while with others if is just plain every-day refusal to think!

There is a new order of things. Look around you-you will see it on every side. Business, industry, know it-you can't help but recognize it. But look at your town! Has it kept pace? Most towns have just ridden along on the crest of the wave-like Topsy's, have "just growed," with little or no thought, consideration, or analysis that is vital to continued growth, expansion and prosperity.

A town is a business—your business. You are a part of that business the same as an employee is of an industrial plant. Your bread and butter depends on the continued growth and prosperity of that business, and regardless of your station in life-regardless of the job you hold, the work you do or the business you are in, you are the fourth year of his service as meet the requirements of all the

As an employee of a manufacturing plant you are a part of it you must do good work, you must be sold on the product made or you are fired. The better the work you do, the more you make. As a church's activities and in a purely and accelerated as a result of the

You should know about your town-it is yours, and what you a place alongside the leading or- the new church plant. do goes to make it a good town-maybe it isn't; maybe it is "old ganizations of the denomination in fashioned," maybe it has "just growed"-but what have you done to Texas. make it any different? A town is just as big as the people in it, and you are the people!

It is not the opinion and habits of the few shining lights that make a community. True, there must be leaders, but when big industries consider your town for location of a new factory, investment in present enterprises, etc., it is the people in general they are most interested in-you and all the other people like you.

town-had the opportunities that it has today. Big business is look- J. Webb Howell, all is modern and and rendered to the community in ing to the smaller city as it never has before. The town or city that of the finest boasted by the deprepares itself for big things will greatly profit, and every individual citizen will be benefited-but the town must be ready. The way i to be at work-(building up the morale, aggressiveness, customer atti tude and salesmanship ability of the "clerks"-citizens-of the com munity-not by erection of monuments or idle talk on "Town Boost ing"-but by constructive thinking to do something, get something, achieve something,-to climb out of the rut, to have a city that is the best in the land in which to live, work, play and make money-to have a city which has eliminated the "oppressive ugliness" of dormant, in-

What are you going to do about it?

of the stock market too late.

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts. Thursally and easily, which you can get at
